

MODEL Curvy 7465 rrp \$829

The Singer 7465 sewing machine is a fully electronic sewing machine and will inspire confidence. It has a full range of utility, decorative, quilting, heirloom and stretch stitches. Each stitch is electronically formed and optimally set, which means every stitch is sewn with exact precision. You can even do free motion work with its drop feed feature. The Singer 7465 also threads quickly and easily with its 6-Second Threading System. Modern and stylish, for a bright modern look, with easy to follow stitch selection and adjustments for width and length of stitch. Stitch width is adjustable up to 7mm wide, touch the button to reverse, also the built-in needle threader is easy accessible thanks to the angular front cover making the needle bar area, clearly visible, while stitching.
