

## **MODEL Curvy 8763 rrp \$999**

### **Introducing the NEW Exclusive SwiftSmart™ Threading System**

Digital technology makes threading a cinch! All you have to do is guide the thread directly from the spool to the needle area through a single groove. Then, after effortlessly threading the machine, the needle is automatically threaded by simply pressing the Threader Lever, conveniently located at the side of the machine, for truly one-touch threading!

The SINGER Curvy 8763, is a fully electronic sewing machine. It features 30 stitches, including 2 styles of fully automatic 1-step Buttonholes, a full range of utility, decorative, quilting, heirloom and stretch stitches. For the first time since the invention of the sewing machine, Singer has created a new method of threading the machine and bobbin by combining digital technology with a one-touch needle threader.

### **Features & Benefits:**

- Centre Zigzag Taper
- Stitch Locking Function
- Extra High Presser Foot Lifter
