

## **MODEL Curvy 8770 RRP \$1159**

### **Introducing the NEW Exclusive SwiftSmart™ Threading System**

Digital technology makes threading a cinch! All you have to do is guide the thread directly from the spool to the needle area through a single groove. Then, after effortlessly threading the machine, the needle is automatically threaded by simply pressing the Threader Lever, conveniently located at the side of the machine, for truly one-touch threading!

The **SINGER Curvy 8770**, is a fully electronic sewing machine. It features 176 stitches patterns, including 6 styles of fully automatic 1-step Buttonholes, a full range of utility, decorative, quilting, heirloom and stretch stitches. For the first time since the invention of the sewing machine, Singer has created a new method of threading the machine and bobbin by combining digital technology with a one-touch needle threader.
